WHAT IS THE NASSAU BOCES MENTAL HEALTH CONSORTIUM?

Formed in 2019, the Nassau BOCES Mental Health Consortium (MHC) united to collectively support the implementation of NYSED's Mental Health Education requirements. Now expanded, MHC embraces all 56 districts in Nassau County, alongside several districts in Suffolk and Westchester counties.

Collegial Circles

The Mental Health Consortium offers 10+ collegial work groups/circles that meet virtually monthly, including, elementary counselor circle, school psychologist collaborative clinical discussion group, BCBA circle, LGBTQ+ learning group, crisis team roundtable exercises and more. These groups are facilitated by MHC staff (NO COST).

These groups are moderated by experts in their fields. The district MHC membership covers the cost of these groups.

Staff Collaboration
