Department of
Special Education

Susan McNulty
Principal

Dear Parent/Guardian:

Although a medical professional may recommend a student's absence in order to provide physical therapy or other services, it is recommended that students be present at school as many times during the year as possible.

Examples of events that may result in a student's absence are:

1. Following hospitalization
2. Following surgery
3. Following physical therapy
4. Following any other medical condition

Enclosed is a clear copy of any of the above.

Please feel free to call if you have any questions regarding this policy.
