The Challenger League is a special part of the East Meadow Baseball/Softball Association. It is a league that provides a baseball environment to children with special needs. The Challenger program affords these children the opportunity to play ball and experience exciting, friendly and fun competition. The league is run entirely by volunteers and always welcomes community participation. Many East Meadow players from Baseball and Softball come down on games days to assist the Challenger players and join in the fun. Call Lee Cook or visit the web site for more information.
