ASBESTOS MANAGEMENT IN SCHOOLS

Information on Compliance with AHERA Requirements for Superintendents of Schools, Headmasters, Directors, Asbestos Inspectors & Management Planners

The Environmental Protection Agency (EPA) has developed this guidance to help Local Education Agencies (**LEAs**) achieve compliance with the **Asbestos-Containing Materials in Schools** regulation (**40 CFR Part 763**).

These regulations, in effect since 1986, require that public and not-for-profit non-public, elementary and secondary schools be inspected to determine the presence of asbestos-containing building materials and that asbestos management plans be developed as a result of those inspections. State requirements may vary.
